

It is the objective of the Faculty to prepare graduates for the professional business and public management practice.

## Faculty of Management Sciences

# Central University of Technology, Free State

### Educating beyond: Producing custom-made graduates for the challenging world of work

It is the objective of the Faculty to prepare graduates for the teaching profession and professional business and public management practice.

Various programmes to achieve this are presented in the Faculty, whilst also addressing the needs articulated in Higher Education legislation and policies, the Human Resource Development Strategy of the country, the Free State Growth and Development Strategy and other relevant national and regional strategies.

Our degrees take a unique approach towards business and public management and, as a result, our graduate employment rates are outstandingly high.

The success of our qualifications lies in our innovative approach, which provides opportunities to apply one's knowledge and skills in the South African public and private sector as well as in the international business environment.

"If you are thinking beyond, then this Faculty is your call, because we are educating beyond."

- Prof Albert Strydom  
Dean of Faculty

Prof Albert Strydom  
Dean of Faculty

## Entrepreneurship and Business Development / Accounting

### A zeal for BUSINESS? A potential ENTREPRENEUR?

We foster, develop and enhance the entrepreneurial and business spirit amongst our graduates, preparing them for the following careers:

- Cost and Management Accountants
- Internal auditors
- Marketers
- Human Resources Practitioners
- Project managers
- Office managers

Join us, where you as student will have the opportunity to learn in an environment where you are treated as an individual; and where systems exist, which allow you to realize your potential in order to succeed in a forever changing work environment.
